

FOR IMMEDIATE RELEASE

K12 Leaders Select the IdentiMetrics Finger Scanning ID System™ as a “Readers’ Choice Top 100 Product”

District Administration magazine has highlighted 100 products that enhance learning in districts nationwide in its annual awards program

Erdenheim, PA – December 1, 2013 – The IdentiMetrics Finger Scanning ID System™ has been recognized for making a positive difference in education by K12 leaders who named it to District Administration magazine’s “Readers’ Choice Top 100 Products for 2013.”

The winners, selected by District Administration’s editors from a record 2,000-plus nominations, were products that received the highest number of nominations and best descriptions from K12 leaders. The Readers’ Choice Top 100 has been announced online and in the December 2013 issue of District Administration.

District Administration’s Readers’ Choice Top 100 Products award informs superintendents and other senior school district leaders about products their colleagues around the country are using to help their districts excel in a variety of areas, such as technology, sustainability and curriculum instruction.

“With the Top 100 award program steadily growing in size and recognition each year, all of our 2013 honorees should be very proud of their success,” says JD Solomon, District Administration’s editorial director. “We hope that all of our readers continue to be inspired and find innovative ideas from their peers who have had successful product implementations.”

About District Administration

District Administration provides K12 leaders with critical news and information for school district management, through its monthly magazine, website, e-newsletters and the District Administration Leadership Institute Superintendent Summits. For more information, visit www.DistrictAdministration.com.

About identiMetrics

identiMetrics, Inc., a privately held company headquartered outside of Philadelphia, PA, is the leader in the development and marketing of biometric finger scanning identification solutions. identiMetrics provides the only biometric ID system designed specifically for the unique needs of schools. The identiMetrics Finger Scanning ID System™ provides a cost-effective and accurate replacement for swipe-card readers, barcode readers, and PIN pads allowing schools and school districts to increase accountability, improve operations and boost security.
